They are for three purposes, financing budget deficit, strengthening the stability of financial institution system, by supporting the Financial Institutions Development Fund, and other purposes; such as financing for stimulus Package 2 (Thaikhemkang), financing for constructing the water management systems and repaying external loans.</p> <p><b>State Enterprises Domestic Debt</b> encompasses all state enterprises' borrowings under both government's guaranty and non-guaranteed scheme, excluding state enterprises' liabilities in term of deposits.</p> <p>The state enterprises' outstanding domestic debt data are collected in a gross amount on a cash basis, on which a transaction is recorded when the corresponding receipt or repayment actually takes place. Data are obtained from the Public Debt Management Office (PDMO), the Ministry of Finance and the Payment and Bond Department of BOT.</p> <p>Data are compiled from the changes in the outstanding debt, which would occur only when there are (i) issuance of debt securities, (ii) borrowings, (iii) early redemption of existing debt securities, or (iv) repayment of principles. Therefore, the gross outstanding amount at the end of the previous period plus new borrowings minus gross amount of redemption/ repayment equals the gross outstanding amount at the end of the corresponding period.</p>
