Title	Thailand's International Investment Position Classified by Sector (US\$)
Frequency ,Lag time and Release schedule	<p>Frequency Quarterly Lag Time 1 quarter Release schedule The last business day of the following quarter</p>
Summary Methodology <ul style="list-style-type: none"> • Analytical Framework, Concepts, Definitions, and Classifications • Scope of the data • Accounting Conventions • Nature of the Basic Data Sources • Compilation Practices 	<p>International investment position (IIP) is the balance sheet of the country vis-à-vis the rest of the world, comprising of financial claims on nonresidents, liabilities to nonresidents, monetary gold, and Special Drawing Rights (SDRs).</p> <p>The stock at the end of a specific period is a result of the stock at the end of the previous period, financial transactions, valuation changes, and other volume changes occurred during the period, all of which affects the level of assets and/or liabilities.</p> <p>Thailand's IIP follows the conceptual framework of the International Monetary Fund (IMF)'s Balance of Payments and International Investment Position Manual, sixth edition. Data on IIP are disseminated in millions of US dollars. The midpoint between the buying and selling rates at the end of each period were used for currency conversion.</p> <p>Sectoral classification of IIP are as follows:</p> <ol style="list-style-type: none"> 1. General government 2. Central Bank 3. Other Depository Corporations (ODCs): comprises commercial banks, finance companies, credit fanciers, special financial institutions (SFI), and other deposit-taking corporations other than the central bank. 4. Other Sectors: comprises other financial corporations (OFCs), nonfinancial corporations, households, and non-profit institutions serving household (NPISHs). <p>The principle of "passive confidentiality" is applied; i.e., data would be suppressed at the request of entities who are concerned that their interests would be harmed by the level of detail disseminated.</p>
