<b>Summary Methodology</b> <ul style="list-style-type: none"> <li>• Analytical Framework, Concepts, Definitions, and Classifications</li> <li>• Scope of the data</li> <li>• Accounting Conventions</li> <li>• Nature of the Basic Data Sources</li> <li>• Compilation Practices</li> </ul>	<p>This table presents average important financial ratios by peer groups of full branches of foreign banks at the end of quarter. The data are compiled from the dataset group of all offices (including Bangkok International Banking Facility or BIBF).</p> <p>Important financial ratios are divided into three categories:</p> <ol style="list-style-type: none"> <li>1. Asset Quality and Capital Adequacy</li> <li>2. Profitability</li> <li>3. Operating Efficiency</li> </ol> <p>Per year data are annualized.</p> <p><b>Peer Group Criteria</b></p> <p>The size of total asset of each full branch determines its peer group. The grouping criteria uses “market share” or the percentage proportion of a full branch’s total asset against the sum of total assets of all full branches. The three peer groups for full branches of foreign banks are the following:</p> <ol style="list-style-type: none"> <li>1. Large Banks include full branches with market share of 7% or above.</li> <li>2. Medium Banks include full branches with market share of 2% and less than 7%</li> <li>3. Small Banks include full branches with market share of less than 2%</li> </ol> <p>When a bank’s market share changes to the extent that current peer grouping does not hold, re-grouping of peer members will take place only after the trend of change persists for at least two consecutive quarters. (Previously released data will not be revised to reflect re-grouping.)</p> <p><b>Financial ratios</b></p> <p><b>Asset Quality and Capital Adequacy Ratio (%)</b></p> <ul style="list-style-type: none"> <li>• Capital funds/Risk assets <ul style="list-style-type: none"> <li>Capital funds (Table FI_RF_003)</li> <li>Per Risk assets (Table FI_RF_003)</li> </ul> </li> <li>• Off-balance sheet transactions/Assets <ul style="list-style-type: none"> <li>Off-balance sheet transactions (Table FI_RF_003)</li> <li>Per Assets (Table FI_RF_001)</li> </ul> </li> <li>• Loan to related parties/Loans <ul style="list-style-type: none"> <li>Loan to related parties (Table FI_RF_003)</li> <li>Per Loans (Table FI_RF_003)</li> </ul> </li> <li>• Non - performing loan/Loans</li> </ul>
