Table code	FI_RF_004_S3
Title	Average of Ratio of Full Branch (Peer Group)
Frequency ,Lag time and Release schedule	<p>Frequency Quarterly Lag time 40 days Release schedule Preliminary figures : Day 10th Actual figures (with revision, if necessary) : The subsequent scheduled release</p>
<p>Summary Methodology</p> <ul style="list-style-type: none"> • Analytical Framework, Concepts, Definitions, and Classifications • Scope of the data • Accounting Conventions • Nature of the Basic Data Sources • Compilation Practices 	<p>This table presents average important financial ratios by peer groups of full branches of foreign banks at the end of quarter. The data are compiled from the dataset group of all offices (including Bangkok International Banking Facility or BIBF).</p> <p>Important financial ratios are divided into three categories:</p> <ol style="list-style-type: none"> 1. Asset Quality and Capital Adequacy 2. Profitability 3. Operating Efficiency <p>Per year data are annualized.</p> <p>Peer Group Criteria</p> <p>The size of total asset of each full branch determines its peer group. The grouping criteria uses “market share” or the percentage proportion of a full branch’s total asset against the sum of total assets of all full branches. The three peer groups for full branches of foreign banks are the following:</p> <ol style="list-style-type: none"> 1. Large Banks include full branches with market share of 7 % or above. 2. Medium Banks include full branches with market share of 2 % and less than 7 % 3. Small Banks include full branches with market share of less than 2 % <p>When a bank’s market share changes to the extent that current peer grouping does not hold, re-grouping of peer members will take place only after the trend of change persists for at least two consecutive quarters. (Previously released data will not be revised to reflect re-grouping.)</p> <p>Financial ratios</p> <p>Asset Quality and Capital Adequacy Ratio (%)</p> <ul style="list-style-type: none"> • Capital funds/Risk assets <ul style="list-style-type: none"> Capital funds (Table FI_RF_003_S2) Per Risk assets (Table FI_RF_003_S2) • Off-balance sheet transactions/Assets <ul style="list-style-type: none"> Off-balance sheet transactions (Table FI_RF_003_S2) Per Assets (Table FI_RF_001_S3) • Non - performing loan/Loans <ul style="list-style-type: none"> Non - performing loan (NPL) (Table FI_RF_003_S2) Per Loans (Table FI_RF_003_S2) • Problem assets/Assets plus allowance <ul style="list-style-type: none"> Problem assets (Table FI_RF_003_S2) Per Assets plus allowance (Table FI_RF_003_S2)

- Loans/Deposits
Loans (Table FI_RF_003_S2)
Per Deposits (Table FI_RF_001_S3)
- Liquidity Coverage Ratio (LCR) From 2016 onwards, The BOT has changed Liquidity Coverage Ratio: LCR Regulation
High-quality liquid assets: HQLA is assets with a high quality, have no obligation and can be easily and quickly turn into cash without significant value losses in severe liquidity stress period, such as cash, deposits or reserves at central bank and securities
Per Net expected cash outflow over the next 30 days in severe liquidity stress period.
