Table code	FI_RT_004_S3
Title	Average of Ratio of Thai Commercial Banks (Peer Group)
Frequency ,Lag time and Release schedule	<p>Frequency Quarterly</p> <p>Lag time 40 days</p> <p>Release schedule</p> <p>Preliminary figures : Day 10th</p> <p>Actual figures (with revision, if necessary) : The subsequent scheduled release</p>
Summary Methodology <ul style="list-style-type: none"> • Analytical Framework, Concepts, Definitions, and Classifications • Scope of the data • Accounting Conventions • Nature of the Basic Data Sources • Compilation Practices 	<p>This table presents average important financial ratios by peer groups of commercial banks registered in Thailand (exclude retail Banks and subsidiaries of foreign banks) at the end of quarter. The data are compiled from the dataset group of all offices (including Bangkok International Banking Facility or BIBF).</p> <p>Important financial ratios are divided into three categories:</p> <ol style="list-style-type: none"> 1. Asset Quality and Capital Adequacy 2. Profitability 3. Operating Efficiency <p>Per year data are annualized.</p> <p>Peer Group Criteria</p> <p>The size of total asset of each Thai commercial bank determines its peer group. The grouping criteria uses “market share” or the percentage proportion of a Thai commercial bank’s total asset against the sum of total assets of all Thai commercial banks. The three peer groups are the following:</p> <ol style="list-style-type: none"> 1. Large Banks include Thai commercial banks with market share of 10 % or above. 2. Medium Banks include Thai commercial banks with market share of 2.5 % and less than 10 % 3. Small Banks include Thai commercial banks with market share of less than 2.5 % <p>When a bank’s market share changes to the extent that current peer grouping does not hold, re-grouping of peer members will take place only after the trend of change persists for at least two consecutive quarters. (Previously released data will not be revised to reflect re-grouping.)</p> <p>Financial ratios</p> <p>Asset Quality and Capital Adequacy Ratio (%)</p> <ul style="list-style-type: none"> • Capital funds/Risk assets <ul style="list-style-type: none"> Capital funds (Table FI_RT_003_S2) Per Risk assets (Table FI_RT_003_S2) • Tier 1 Capital/Risk assets <ul style="list-style-type: none"> Tier 1 Capital (Table FI_RT_003_S2) Per Risk assets (Table FI_RT_003_S2)
