

Summary Information on Revision of THOR

The Bank of Thailand, as the administrator of THOR, has put in place policies and procedures to ensure accurate and timely publication of THOR. However, the Bank of Thailand recognizes that errors may occur in limited circumstances.

This table provides summary information on:

- (1) the revision of THOR at about 9:30 a.m. on the following business day should the revision of data result in a change of at least a 1 basis point change in THOR. (Please note that no further amendments will be made to THOR after the specified time under any circumstances.)
- (2) the technical issues which delay the publication of THOR from 5.00 p.m. (or as specified by Bank of Thailand)

The table is updated as soon as new information becomes available. THOR Average and THOR Index will subsequently be calculated from the corresponding revised THOR.

Date	THOR at 5 p.m.	THOR after revision	Reason
31 August 2020	n.a.	0.48382	delay the publication time to 5.31 p.m. on the same day due to technical problem
