No. 69/2020

**Announcement of Special Holiday for Financial Institutions
and Specialised Financial Institutions**

The Cabinet decided on the 22th September 2020 to announce additional public holidays in order to stimulate economy and promote tourism.

The Bank of Thailand (BOT) has accordingly decided that financial institutions to provide services as usual on the 19th and the 20th November 2020 and to designate the 7th December 2020 as special public holiday for financial institutions and specialised financial institutions in order not to increase cost to businesses and to allow them to perform transactions as planned.

However, the BOT has decided to designate the 11th December 2020 as special public holiday for financial institutions and specialised financial institutions as it would support the government's policy to promote tourism which will benefit the economy as a whole.
